A black blade usually refuses to use any of its abilities when wielded by someone other than your Magus, and acts as a masterpiece weapon of its kind. Sometimes, it only appears among Magus' possessions, and its origin is a mystery. If it breaks, the black blade is unconscious and powerless until it is repaired. Some black blades are very open about their missions, but most are

secret. Black Blade Arcane Pool: A black blade has an arcane pool of multiple points equal to 1 + its intelligence bonus. I can't see anywhere adding it, except to make a normal +1 scimitar, add alert to the Magic Settings tab and type in the notes somewhere. It's a specific way to add it.What have I lost or can I just do it manually in a way of roughly a way of being like I'm doing? He went through generation to generation in an ongoing search for a Magus that can unlock its true potential. Black Blades A black blade is a particular form of smart weapon obtained by a Magus with the Bladebound archetype. Telepathy (SU). While a Magus is holding or carrying its black leaf, it can communicate telepathically with the leaf in a language that the Magus and the black leaf share. This skill changes the arcane pool class feature and replaces the Magus Arcana won at the third level. Unbreakable (ex): Provided you have at least 1 point in your arcane pool, a black blade is immune to the broken condition. Instead of the normal amount of the arcane pool, the arcane pool of Magus Bladebound has a number of points equal to 1/3 of its level (minimum 1) plus its intelligence bonus. Languages and skills: a black blade starts with commons like language. Ego: a black blade begins with an ego of 5, and the ego increases as the blade becomes more powerful, according to the table: black black Progress below For every four levels of 1<sup>st</sup>, this ability gives the black sheet another +1 into damaged rolls. It begins in 10 and increases in 1 per two levels of the Magus BladeBound (in the 3rd level, 5th level, and so on). Alert (ex): While a magician pushed his black sword, he earns Alertness's feat. Black blade skill descriptions A black blade has special skills (or imparting skills to your carrier) depending on the level of magus à €<sup>™</sup>™. Each time the sword earn a bonus to intelligence, he earns another language and another range in knowledge (Arcana).
