We offer a purchase option to be, as well as signing options for one and six months. Regrettably, we have to charge for our applications so that we can finance extravagant purchases such as food, clothing and rent. Can anyone help me? All synchronization is treated by Apple via iCloud, and there is nothing to configure. You need to ensure that your two devices are using the same Apple ID. We recently added a support document that explains exactly what needs to be configured in each of your devices: to be in mind, it takes a few seconds to À few minutes for Apple servers to synchronize things: It is not an instant process.
